In collaboration with ASU's Department of Information Systems Club (DISC), the Tempe Public Library is offering ***free*** computer classes.
All classes begin at 6:00 PM.
Registration is *not* required.

Handheld Readers - This class will help the user get acquainted with their Nook, Kindle or other device to which they can download reading materials. The class will cover online materials available from Tempe Public Library and free and pay sites on the Internet.
January 16 | March 27

Basic Computing & Email - This class covers the basics of computing: turning on the computer, opening programs, creating and using an email account, as well as an analysis of the hardware and software that are used in the process.
January 23

Smart Phone & Texting - This class will provide a brief introduction to key smart phone features including retrieving email, texting and accessing the internet. Additionally you'll be introduced to the vast world of apps., which includes everything from GPS to QR code scanning.
January 30 | February 27 | April 3

Word - This class covers Microsoft Word and its available features. Beginning with the basics of how to open the program, we will cover page and text formatting. Examples of applications of these features are also provided.
February 6 | March 6 | April 10

PowerPoint - Learn how to create a presentation using Microsoft PowerPoint, add fun graphics and transitions. This can be used in the office as well as in the home.
February 13 | April 17

Excel - We start at the beginning with the basic features of Microsoft Excel, and then delve into the finer and most commonly used features: functions. We will also go over how to turn data into readable graphs.
February 20 | March 20 | April 24
