**Beginning December 17, 2013 we will launch a new selection of e-books that will be available only to Tempe Public Library cardholders.**

Beginning December 17, we are launching our own selection of e-books that are free for you to download. In the past, you accessed e-books from the Greater Phoenix Digital Library, sharing with cardholders from all libraries in the rest of Maricopa County. We felt you deserved shorter waiting times for popular books and access to an e-book collection selected to better match the reading patterns of Tempe readers.

Thus, as of Dec. 17, we will be withdrawing from the Greater Phoenix Digital Library consortium and offering our own selection of approximately 3,000 titles. These books will be available only to Tempe Public Library cardholders. This startup collection is larger than most for libraries of Tempe's size and the number of titles available will continually increase. The logon process will look the same. Titles you currently have checked out and on hold will carry over. Unfortunately Wish Lists were unable to be transferred because they are connected to titles in the Greater Phoenix Digital Library consortium.

As a result, your Tempe library card will no longer provide access to the Greater Phoenix Digital Library. If you have an additional card for a neighboring library, such as Phoenix, Mesa, Scottsdale or Chandler, you will still have access to that collection if you want it.

You may access the new Tempe OverDrive Digital Collection at: http://tempe.lib.overdrive.com or by visiting the library's homepage: www.tempe.gov/library and click on 'Digital Books & More' then 'Tempe OverDrive Digital Collection'. You will also have direct access to email OverDrive with any technical questions or difficulties you have. Visit their 'Help' page then 'Support'.
