911  
RED!!**

**PRACTICE DIALING 911 HERE**

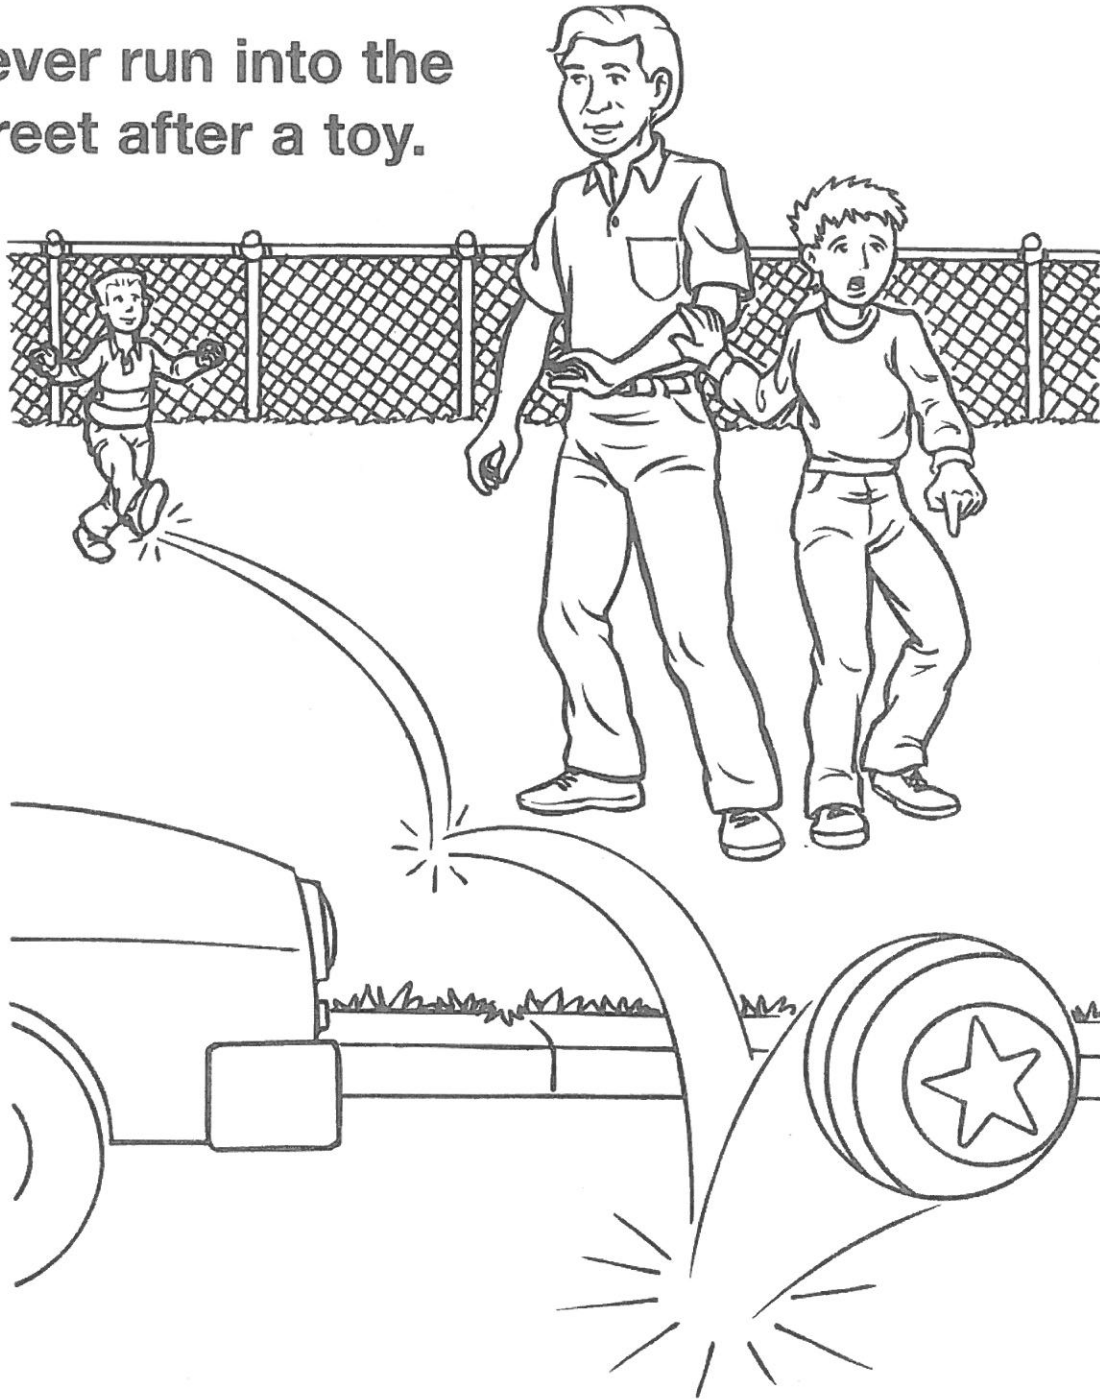

**COLOR  
YOUR OWN  
BADGE**

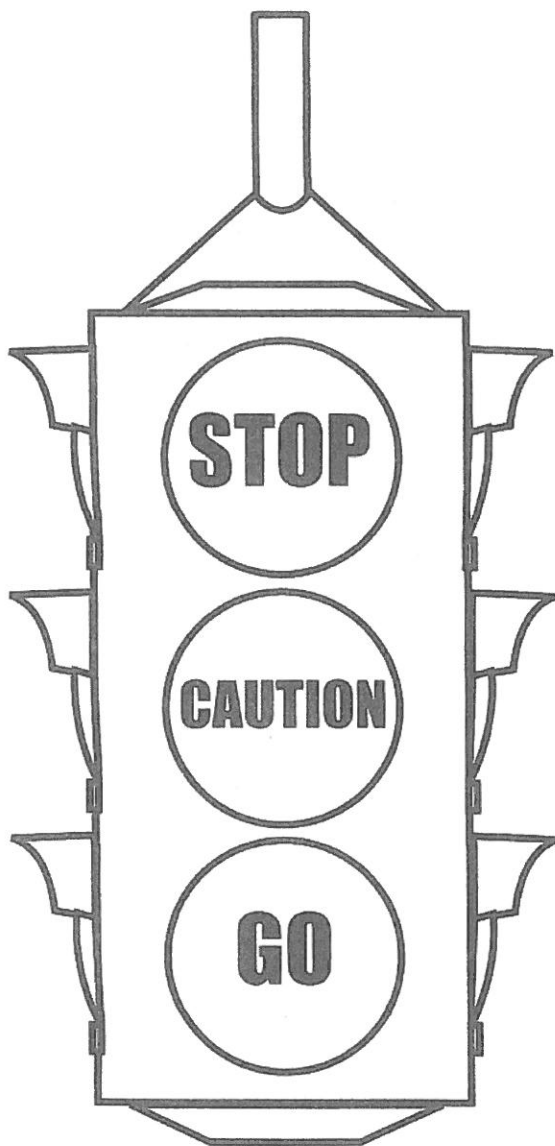

It is important to stop, look, and listen when you are crossing a street. Cross at a crosswalk. Stop at the curb, and look to your left and right for traffic. Listen for the sound of a vehicle. Only cross the street when you are certain there is no traffic.

**Never run into the street after a toy.**

Ask an adult for help whenever possible. Remember to stop, look, and listen before approaching the street. Never enter the street from between parked cars. Oncoming traffic cannot see you. Find a crosswalk or safe place to cross the street where you can see traffic.

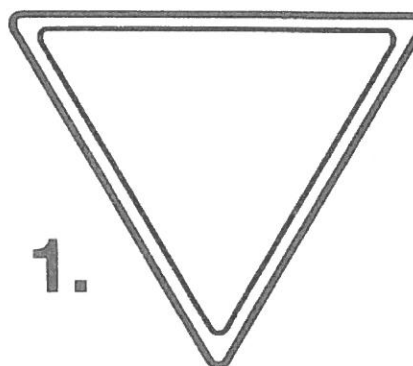

It is important to obey all traffic signals.

Color the traffic light.

**STOP = red**

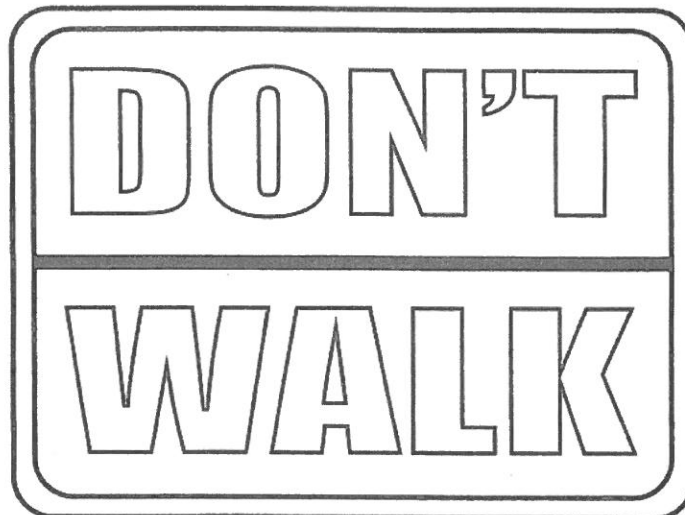

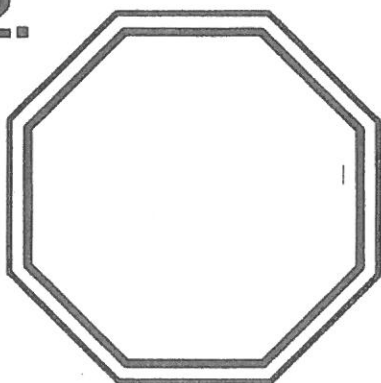

**CAUTION = yellow**

**GO = green**

Fill in the missing words in the street signs.

2.

Never cross the street when the DON'T WALK sign is flashing. Wait until the WALK signal flashes.
