VERTICAL SCALE: 1" = 2'

SIGN _____

PRINT _____
UTILITY COMPANY REPRESENTATIVE
OR AUTHORIZED AGENT

DATE

- NOTES:
- 1. Provide Proposed Location of Bore and All Utilities
With Vertical & Horizontal Dimensions, as Well as Dimensions
of Facilities To Be Crossed.
 - 2. See MAG. 212 for all potholes.
 - 3. 24" Min. Vertical Clearance shall be Provided From All C.O.T. Facilities.

The signature of the inspector on this sheet, the contractor's
bore profile, only confirms that the proposed bore path is not
in conflict with Tempe Engineering utility clearance
standards based on the contractor's representation
of the location of the utilities.
