

Donate your Building/Construction Materials!

If you are remodeling or demolishing a building, consider donating your gently used materials, appliances, and furniture to organizations such as Stardust Building Supplies and Habitat for Humanity. Stardust also provides a free deconstruction service, as a green alternative to conventional demolition, where they dismantle a building to reuse the materials. By repurposing used materials, less garbage goes into the landfill. In addition, resources, energy, and water are saved from bypassing the creation of a new product. Organizations such as Stardust Building Supplies and Habitat for Humanity use proceeds and materials to help support the local community.

For more information about donating to Stardust Building Materials, click their webpage here: <http://www.stardustbuilding.org/donate2.html>

For more information about Stardust's free deconstruction service, as a green alternative to conventional demolition, click their webpage here: <http://www.stardustbuilding.org/deconstruction.html>

For more information about donating to Habitat for Humanity, click their webpage here: <https://habitatcaz.org/restores/restore-donations/>

Brochures and flyers can also be found at the City of Tempe Community Development Front Counter, Garden Level, 31 E 5th Street.

**The City of Tempe does not endorse any outside organization. Information is a resource for customers. If you are a non-profit organization that accepts donated building/construction materials and would like brochures/information displayed at the CD front counter or on our website, contact Erin Pulford at Erin_Pulford@tempe.gov. **
