### About this document

#### What are Trust and Safety scores?

We gather data from city residents each month and produce scores, on a scale of 0 to 100, that measure how people across the city feel.

#### How are concerns measured?

Residents are asked the following question: "What is the number one issue or problem on your block or in your neighborhood that you'd like the police to deal with?" We process hundreds of replies per month and categorize them.
