Subject: Abatement Hearing for 5321 S Siesta Lane

Good afternoon Drew,

All of the code violations in complaint #CE205012 scheduled for an abatement hearing today have been corrected.

I emailed inspector Julie Scofield as well but I am not sure if she'll see email before scheduled hearing.

I have attached pictures of the property showing the corrections.

In regards to the vehicles in the driveway, the blue Tahoe has a temporary tag to complete emissions testing and the white Yukon is registered until November 2022.

Thank you and best regards,
Tina Lynch
