

TEMPE MUNICIPAL COURT

Language Access Plan

I. Legal Basis and Purpose

This document serves as the plan for Tempe Municipal Court to provide to persons with limited English proficiency (LEP) services that are in compliance with Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.; 45 C.F.R. § 80.1 et seq.; and 28 C.F.R. § 42.101–42.112). The purpose of this plan is to provide a framework for the provision of timely and reasonable language assistance to LEP parties who request an interpreter while at Tempe Municipal Court.

This language access plan (LAP) was developed to ensure meaningful access to court services for persons with limited English proficiency. Although court interpreters are provided for persons with a hearing loss, access services for them are covered under the Americans with Disabilities Act rather than Title VI of the Civil Rights Act, and therefore will not be addressed in this plan.

II. Needs Assessment

Tempe Municipal Court is responsible for providing services identified in this plan to all LEP persons. However, the following list shows the foreign languages for which interpreting services were most frequently provided in the last fiscal year.

1. Spanish
2. Arabic
3. Chuukese
4. Mandarin
5. Marshallese

Interpreters were provided for 20 different languages during the 2021/22 fiscal year. This information was obtained from Tempe Municipal Court 2021/22 case statistics.

III. Language Assistance Resources

A. Interpreters Used in the Courtroom

1. Providing Interpreters in the Courtroom

In Tempe Municipal Court, court interpreters will be provided in all courtroom proceedings at no cost to all LEP court customers including witnesses, jurors, victims, and parents, guardians, and family members of minors as well as any other person who requests an interpreter.

It is the responsibility of the private attorney, Court Appointed Attorney or County or City Attorney to provide qualified interpretation and translation services for witness interviews, pre-trial transcriptions and translations and attorney/client communications during out of court proceedings.

2. Determining the Need for an Interpreter in the Courtroom

Tempe Municipal Court may determine whether a court customer has limited English proficiency. Early identification of language needs is a priority and may be done prior to a court proceeding by the LEP person or on the LEP person's behalf by counter staff or outside justice partners such as police, victim advocates and attorneys or by an LEP party's request either in person, by telephone or in writing. The need for an interpreter will be noted in the Court's electronic case file either by updating the language field or making a note in the register of actions.

Tempe Municipal Court has signs in the police/court lobby and in the lobbies of both the civil and criminal divisions to help direct Spanish speakers.

The need for an interpreter may also be made known in the courtroom at the time of the proceeding. In cases when an interpreter has been requested and all reasonable efforts to find one have failed, the case will be postponed and continued to a date when an interpreter can be provided. In rare cases, when it has been impossible to obtain an on-site interpreter, telephone interpretation services may be used as a last resort.

3. AOC Interpretation Resources

Tempe Municipal Court makes use of the registry of statewide interpreters and the interpreter listserv to locate interpreters for less frequently encountered languages and to widen the selection of interpreters for all languages. As a preference, the Court will hire interpreters who are credentialed through the State's program or, in the case of out of state interpreters, are credentialed through another state or federal program.

B. Language Services outside the Courtroom

Tempe Municipal Court also ensures that LEP individuals have meaningful access to all court services and programs outside the courtroom including cashiers, court services and programs and obtaining records.

The Court provides assistance to all parties to understand court policies and procedures, irrespective of language. Where possible, parties are assisted by either bilingual staff, through translated materials and/or an interpreter who is present in person or by telephone. Where parties require immediate assistance to complete paperwork for use in the courtroom, such as petitions for Orders of Protection or Injunctions against Harassment, they may be assisted in the following ways:

- LEP parties who speak Spanish: the court interpreter will transcribe their statements and assist in recording the necessary details, afterwards reading back, and verifying the information. The interpreter will then indicate on the form who transcribed the information.
- LEP parties who speak a language other than Spanish: where an interpreter is

- available onsite, the same procedure will be followed as for Spanish speaking parties.
- LEP parties who speak a language other than Spanish: where no onsite interpreter is present and cannot be present within a reasonable time, a telephone interpreter will be used to interpret the information and statement given by the LEP party which will then be transcribed by the court interpreter or another member of staff. Details of the interpreter and transcriber will then be noted as in the previous scenarios.
 - At the Court's discretion, the written form may be waived and the LEP party examined with the use of an onsite or telephone interpreter while an oral record is created which may later be transcribed if necessary, indicating that the original source of the information is an oral record.

To facilitate communication between LEP individuals and court staff, Tempe Municipal Court uses the following resources:

- Staff court interpreters or independent interpreter contractors;
- Bilingual employees;
- "I Speak" cards, to identify the individual's primary language;
- Written information in Spanish on how to access and navigate the court;

1. Sight Translation

The court will provide assistance so LEP persons may understand court-issued documents provided in English through sight translation by a qualified interpreter. Where this is impractical due to length, complexity or legibility, the document's contents may be explained by a bilingual member of court staff, in accordance with the pertinent canons and codes of conduct, or by a member of staff in combination with a qualified interpreter.
