2023 Bulk/uncontained garbage and green organics collection schedule

Tempe's uncontained/bulk collection service provides residents the opportunity to dispose of bulky items that do not fit in a garbage container, such as furniture and non-freon appliances, and divert green organic material from the landfill at no additional charge. To ensure an efficient collection, residents must place items by 6 a.m. on Monday of their scheduled collection week, no earlier than 10 days prior.

- The amount of material is limited to 10 cubic yards-the size of a small SUV.
- Landscapers cannot place green organic material for collection. Only homeowners who conduct their own yard work can place their own green organics for collection.
- Inert material such as dirt, rock, concrete, cement blocks, bricks, asphalt, roofing materials, plaster, rolls of carpeting/padding, glass, railroad ties, car parts, appliances with freon, demolition, construction or scrap lumber, are not eligible for pick up.
- Garbage and green organics must be separated into two distinct piles, four feet apart.

For curbside collection, place all items on your property along the sidewalk curb. Do not block the sidewalk. For alley collection, place all items in the alley along your fence line.

Recycle paint, appliances, electronics and other household products that should not be disposed of in your trash or recycling bin at the Household Products Collection Center (HPCC) at 1320 E. University Drive. Visit tempe.gov/HPCC for information.
